Hydrobiologia
The International Journal on Limnology and Marine Sciences

Contents

Dedication v
Appreciation vii
International Seaweed Association Executive Council xv
National Organizing Committee and National Sponsors xvi
Acknowledgments ..... xvii–xviii
Reviewers xix
Marinalg International Awards ..... xxi–xxii
Student Paper Awards xxii
Opening Ceremony and Plenary Session xxiii
The seaweed industry and R & D: a solid partnership
by W.G. Padolina ..... xxv–xxvi
List of Registrants ..... xxvii–l

1. Plenary Presentations

Diversity of the seaweed flora of the Philippines and its utilization
by G.C. Trono, Jr. 1–6
Red algal polysaccharide industry: economics and research status at the turn of the century
by D.F. Kapraun 7–14
A conceptual framework for marine agronomy
by B. Santelices 15–23

2. Systematics and Floristics

Observations on the phylogenetic systematics and biogeography of the Solieriaceae (Gigartinales, Rhodophyta) inferred from *rbc*L sequences and morphological evidence
by S. Fredericq, D.W. Freshwater & M.H. Hommersand 25–38
Development of the extant diversity in *Halimeda* is linked to vicariant events
by W.H.C.F. Kooistra, M. Calderón & L.W. Hillis 39–45

Phylogeny of Alariaceae (Phaeophyta) with special reference to *Undaria* based on sequences of the RuBisCo spacer region
by H.S. Yoon & S.M. Boo 47–55
A new agarophyte, *Curdiea balthazar* sp. nov. (Gracilariales, Rhodophyta), from the Three Kings Islands, northern New Zealand
by W.A. Nelson, G.A. Knight & R. Falshaw 57–63
Marine benthic algae of North East Herald Cay, Coral Sea, South Pacific
by A.J.K. Millar 65–74
Changes of the benthic algal flora of the Tremiti Islands (southern Adriatic) Italy
by M. Cormaci & G. Furnari 75–79

3. Life History

Cell–cell recognition during fertilization in the red alga, *Aglaothamnion oosumiense* (Ceramiaceae, Rhodophyta)
by S.-H. Kim & G.H. Kim 81–89
Morphology and reproduction of the adventive Mediterranean rhodophyte *Polysiphonia setacea*
by F. Rindi, M.D. Guiry & F. Cinelli 91–100
Long-term and diurnal carpospore discharge patterns in the Ceramiaceae, Rhodomelaceae and Delesseriaceae (Rhodophyta)
by J.A. West & D.L. McBride 101–113
Porphyra sp. (Bangiales, Rhodophyta): reproduction and life form
by A. Candia, S. Lindstrom & E. Reyes 115–119
Life history, in culture, of the obligate epiphyte *Porphyra moriensis* (Bangiales, Rhodophyta)
by M. Notoya & A. Miyashita 121–125
Culture studies of *Porphyra dentata* and *P. pseudolinearis* (Bangiales, Rhodophyta), two dioecious species from Korea
by N.-G. Kim 127–135

4. Phenology and Population Studies

Biological basis for the management of *Gigartina skottsbergii* (Gigartinales, Rhodophyta) in southern Chile
by R. Westermeier, A. Aguilar, J. Sigel, J. Quintanilla & J. Morales 137–147
Reproductive biology of *Gigartina skottsbergii* (Gigartinaceae, Rhodophyta) from Chile
by M. Avila, A. Candia, M. Núñez & H. Romo 149–157
Population structure and reproduction of the carrageenophyte *Chondracanthus pectinatus* in the Gulf of California
by I. Pacheco-Ruíz & J.A. Zertuche-González 159–165

Seasonal variations of growth and agar composition of *Gracilaria multipartita* harvested along the Atlantic coast of Morocco
by T. Givernaud, A. El Gourji, A. Mouradi-Givernaud, Y. Lemoine & N. Chiadmi . 167–172
Biomass and agar assessment of three species of *Gracilaria* from Negros Island, central Philippines
by H.P. Calumpong, A. Maypa, M. Magbanua & P. Suarez 173–182
The effects of a simulated harvest on *Porphyra* (Bangiales, Rhodophyta) in South Africa
by N.J. Griffin, J.J. Bolton & R.J. Anderson 183–189
Effects of seasonal growth rate on morphological variation of *Undaria pinnatifida* (Alariaceae, Phaeophyceae)
by M.D. Stuart, C.L. Hurd & M.T. Brown 191–199
Phenology of *Sargassum* spp. (Sargassaceae, Phaeophyta) from Reunion Rocks, KwaZulu-Natal, South Africa
by R.D. Gillespie & A.T. Critchley 201–210
Population and alginate yield and quality assessment of four *Sargassum* species in Negros Island, central Philippines
by H.P. Calumpong, A.P. Maypa, & M. Magbanua 211–215
The ecological effects of mining discharges on subtidal habitats dominated by macroalgae in northern Chile: population and community level studies
by J.A. Vásquez, J.M.A. Vega, B. Matsuhiro & C. Urzúa 217–229

5. Ecology

Obtaining absorption spectra from individual macroalgal spores using microphotometry
by M.H. Graham & B.G. Mitchell 231–239
Evaluating substances that facilitate algal spore adhesion
by B. Santelices & D. Aedo 241–246
Preliminary observations on the development of kelp gametophytes endophytic in red algae
by D.J. Garbary, K.Y. Kim, T. Klinger & D. Duggins 247–252
Using *in situ* substratum sterilization and fluorescence microscopy in studies of microscopic stages of marine macroalgae
by M.S. Edwards 253–259
The sea star *Asterina pectinifera* causes deep-layer sloughing in *Lithophyllum yessoense* (Corallinales, Rhodophyta)
by D. Fujita 261–266
Spatial variability in secondary metabolite production by the tropical red alga *Portieria hornemannii*
by D.B. Matlock, D.W. Ginsburg & V.J. Paul 267–273
Influence of *Ecklonia radiata* kelp canopy on structure of macro-algal assemblages in Marmion Lagoon, Western Australia
by G.A. Kendrick, P.S. Lavery & J.C. Phillips 275–283

6. Responses to Environmental Factors

Factors affecting sporulation of *Gracilaria cornea* (Gracilariales, Rhodophyta) carposporophytes from Yucatan, Mexico
by A. Guzmán-Urióstegui & D. Robledo 285–290
Porphyra cultivation in Alaska: conchocelis growth of three indigenous species
by M.S. Stekoll, R. Lin & S.C. Lindstrom 291–297
Studies on the growth, in culture, of two forms of *Porphyra lacerata* from Japan
by M. Notoya & K. Nagaura 299–303
Effect of tissue nitrogen and phosphorus quota on growth of *Porphyra yezoensis* blades in suspension cultures.
by J.T. Hafting 305–314
Effects of nitrogen source, N:P ratio and N-pulse concentration and frequency on the growth of *Gracilaria cornea* (Gracilariales, Rhodophyta) in culture
by L. Navarro-Angulo & D. Robledo 315–320
Photosynthetic and respiratory responses of the agarophyte *Gelidiella acerosa* collected from tidepool, intertidal and subtidal habitats
by E.T. Ganzon-Fortes 321–328
The effect of light on growth and agar content of *Gelidium pulchellum* (Gelidiaceae, Rhodophyta) in culture
by I. Sousa-Pinto, E. Murano, S. Coelho, A. Felga & R. Pereira 329–338
Effects of environmental factors and plant growth regulators on growth of the red alga *Gracilaria vermiculophylla* from Shikoku Island, Japan
by N.S. Yokoya, H. Kakita, H. Obika & T. Kitamura 339–347
Carbon acquisition strategies of the red alga *Eucheuma denticulatum*
by M. Granbom & M. Pedersén 349–354
Relationship of CO_2 concentrations to photosynthesis of intertidal macroalgae during emersion
by K. Gao, Y. Ji & Y. Aruga 355–359
A theoretical analysis and field evaluation of a light and temperature model of production by *Ecklonia cava*
by M. Honda 361–374
Effects of copper pollution on the ultrastructure of *Lessonia* spp.
by P.I. Leonardi & J.A. Vasquez 375–383

7. Chemistry

Further evaluation of the structure of the polysaccharide from *Plocamium costatum* with the use of set theory
by I.J. Miller 385–389
Biology and agar composition of *Gelidium sesquipedale* harvested along the Atlantic coast of Morocco
by A. Mouradi-Givernaud, L.A. Hassani, T. Givernaud, Y. Lemoine & O. Benharbet 391–395

A comparative analysis of agarans from commercial species of *Gracilaria* (Gracilariales, Rhodophyta) grown *in vitro*
by J. Macchiavello, R. Saito, G. Garófalo & E.C. Oliveira 397–400
Pyruvated carrageenans from *Solieria robusta* and its adelphoparasite *Tikvahiella candida*
by A. Chiovitti, A. Bacic, G.T. Kraft, D.J. Craik & M.-L. Liao 401–409
Monthly changes in the content of fucans, their constituent sugars and sulphate in cultured *Laminaria japonica*
by M. Honya, H. Mori, M. Anzai, Y. Araki & K. Nisizawa 411–416

8. Cultivation

Open-water aquaculture of the red alga *Chondrus crispus* in Prince Edward Island, Canada
by T. Chopin, G. Sharp, E. Belyea, R. Semple & D. Jones 417–425
Recent advances in the understanding of the biological basis for *Gigartina skottsbergii* (Rhodophyta) cultivation in Chile
by A.H. Buschmann, J.A. Correa & R. Westermeier 427–434
Economic feasibility of *Sarcothalia* (Gigartinales, Rhodophyta) cultivation
by M. Avila, E. Ask, B. Rudolph, M. Nuñez & R. Norambuena 435–442
Comparison of the performance of the agarophyte, *Gracilariopsis bailinae*, and the milkfish, *Chanos chanos*, in mono- and biculture
by L.B. Alcantara, H.P. Calumpong, M.R. Martinez-Goss, E.G. Meñez & A. Israel . 443–453
Upwelling and fish-factory waste as nitrogen sources for suspended cultivation of *Gracilaria gracilis* in Saldanha Bay, South Africa
by R.J. Anderson, A.J. Smit & G.J. Levitt 455–462
Outplanting of laboratory-generated carposporelings of *Gracilariopsis bailinae* off northern Philippines
by S.F. Rabanal & R.V. Azanza 463–468
Review of genetic engineering of *Laminaria japonica* (Laminariales, Phaeophyta) in China
by S. Qin, G.-Q. Sun, P. Jiang, L.-H. Zou, Y. Wu & C.-K. Tseng 469–472
A new method of *Laminaria japonica* strain selection and sporeling raising by the use of gametophyte clones
by D. Li, Z.-G. Zhou, H. Liu & C. Wu 473–476

9. Exploitation

Development of commercial *Kappaphycus* production in the Line Islands, Central Pacific
by D.M. Luxton & P.M. Luxton 477–486
The status of commercial algal utilization in New Zealand
by W.L. Zemke-White, G. Bremner & C.L. Hurd 487–494
The optimal utilization of kelp resources in the southern Cape area of South Africa
by K.W.G. Rotmann 495–499

Gelidium robustum agar: quality characteristics from exploited beds and seasonality from an unexploited bed at Southern Baja California, México
by Y. Freile-Pelegrín, D. Robledo & E. Serviere-Zaragoza 501–507
Gracilariopsis lemaneiformis beds along the west coast of the Gulf of California, Mexico
by I. Pacheco-Ruíz, J.A. Zertuche-González, F. Correa-Díaz, F. Arellano-Carbajal & A. Chee-Barragán 509–514
